Artist's Biography
Dean Wilhite was born in Olton, Texas. After studying graphic design at OSU Okmulgee, he worked as a graphic designer in studios and ad agencies, doing photo retouching, illustration, production art and logo design.

The pursuit of perfect chiaroscuro is Wilhite's great love, and working in acrylics and watercolors allows him to get shadow detail just right – or to bring in a touch of highlight that adds magic to a piece.

As far back as he can remember, Wilhite has sought out images that make him pause and reflect nostalgically on events from his memory – a shadow that crossed the road to his granddad’s farm, or the window shade on the house next door casting its long afternoon shadow on the siding boards. His goal is to paint these images so vividly that they whisk the viewer on a journey through their own memories.

Wilhite has worked across a wide range of design disciplines, and has been published in national design journals and books. The illustrative work he did featuring small towns in Oklahoma for the award-winning BancFirst television campaign is a prominent example of his work's ever-present bold color palette – and his love for evoking distant memories with the smallest of details.

Wilhite will be the Urban Core Feature Artist for 2017 at Verbode in Oklahoma City.
